The recommendations are not prescriptive and if a company considers that a recommendation is inappropriate having regard to its particular circumstances, the company has the flexibility not to adopt it. Where SCN considered it was not appropriate to presently comply with a particular recommendation, the reasons are set out in the relevant section of this Corporate Governance Statement.

Responsibilities of Senior Executives

The responsibility for the day to day operation and administration of the Company, in accordance with the direction of the Board, is delegated by the Board to the Managing Director (or equivalent) and the executive team. The Board ensures that this team is appropriately qualified and experienced to carry out their responsibilities and has in place procedures to assess the performance of the Managing Director (or equivalent) and the executive team. In delegating this power, the Board must also be satisfied that the Managing Director (or equivalent) and senior executives will exercise their powers reliably and competently, and in accordance with the requirements of the Board.

- implementing all policies, procedures and codes approved by the Board.

Performance evaluation of Board and Senior Executives

The Board has adopted a policy for evaluating the performance of the Board and Directors, a copy of which is available on its website. Due to the size and scale of the Group's operations at present, no evaluation of Board performance was undertaken during the reporting period.

The Board has a policy for an annual evaluation of the Managing Director (or equivalent) and other senior executives, a copy of which is available on its website. However, no senior executives were employed by the Group during the reporting period.

For further information regarding the Company's Performance Evaluation Policy please refer to the Corporate Governance section of the Company's website.

Structure of the Board and Skills Matrix

To ensure the Board is well equipped to discharge its responsibilities it has established guidelines for the nomination, selection, induction and ongoing professional development of Directors. These guidelines include a requirement to undertake appropriate background checks prior to the appointment of a person as a director, including but not limited to undertaking police and solvency checks, a formal induction program to enable new Directors to build their knowledge and make an effective contribution in a timely manner, and the provision of appropriate professional development opportunities for Directors to develop and maintain the skills and knowledge needed to perform their roles as Directors effectively.

The Directors in office and the term of their appointment at the date of this Corporate Governance Statement are:

Name	Position	Date of Appointment
B Barnes	Independent Non-Executive Director	31 October 2018
C New	Independent Non-Executive Director	1 February 2019
C Hall	Independent Non-Executive Director	11 February 2019

The skills, experience and expertise relevant to the position of Director held by each Director at the date of this Statement are included on page 4 of the Company's 2019 Annual Report.

The composition of the Board is reviewed regularly by the Board to ensure that the Directors between them bring the range of skills, knowledge and experience necessary to direct the Company's operations. The Board has agreed a formal skills matrix identifying the mix of areas the Board should collectively hold across its membership, which includes experience in areas such as: operational management, exploration, geology, finance/accounting, law and capital markets. The Board believes that the Directors between them bring the range of skills, knowledge and experience necessary to direct the Company's current operations.

The appointment of Non-Executive Directors is formalised in accordance with the requirements of the *Corporations Act 2001* and the Company's constitution.

Non-Executive Directors and senior executives have entered into Letters of Appointment with the Company. The Letter of Appointment summarises the Board policies and terms of appointment, including compensation relevant to the office of Director.

The Company Secretary is accountable directly to the Board on all matters to do with the proper functioning of the Board. All Directors have unfettered access to the Company Secretary. In addition, Directors are entitled, in furtherance of their duties, to seek independent professional advice at the Company's expense.

Independence

Recommendation 2.4 requires a majority of the Board to be independent Directors. The ASX guidance on factors relevant to an assessment of independence includes interests, positions, associations or relationships which might interfere with, or reasonably be seen to interfere with, a director's capacity to bring independent judgement to bear on issues before the Board and to act in the best interests of the entity and its security holders generally. In accordance with this guidance, all of the current directors are considered to be independent directors.

The Company does not have a Chairman of the Board.

Nomination and Remuneration Committee

The Board has adopted a Nomination and Remuneration Committee Charter. As noted above, neither a Nomination nor Remuneration Committee has been established and during the financial year, the full Board undertook the responsibilities for determining and reviewing compensation arrangements for the Directors and senior executives and ensuring that the Board continues to operate within the established guidelines. For further details regarding the procedure for the nomination, selection and appointment of new Directors and re-election of incumbents, as well as a copy of the Nomination and Remuneration Committee Charter, please refer to the Corporate Governance section of the Company's website.

For further details on the remuneration policy of the Company, including a description of the structure of Non-executive Directors' remuneration and Executive Directors' and senior executives' remuneration, see the Remuneration Report starting on page 16 of the 2019 Annual Report.

The Company does not have an equity-based remuneration scheme.

The Company acknowledges that the guidelines to ASX Principle 8.2 recommend that Non-executive Directors do not receive options with performance hurdles attached. However, in the Company's current circumstances, the Directors may consider options to be a cost effective and efficient means for the Company to provide a reward and incentive, as opposed to alternative forms of incentive, such as the payment of additional cash consideration that would be necessary for someone with the experience of the Directors, and may from time to time resolve to issue options to Non-executive Directors, including with performance hurdles, subject to regulatory and shareholder approval.

There is no scheme to provide retirement benefits (other than superannuation) for Non-executive Directors.

For additional details please refer to the Corporate Governance section of the Company's website.

Audit and Risk Committee

The Board has not established an Audit and Risk Committee but has adopted an Audit and Risk Committee Charter. As noted above, during the financial year, the full Board undertook the responsibility to ensure that an effective internal control framework exists within the entity. This includes internal controls to deal with both the effectiveness and efficiency of significant business processes such as the safeguarding of assets, the maintenance of proper accounting records and the reliability of financial information, as well as non-financial considerations including the benchmarking of operational key performance indicators. The Board is also responsible for the nomination of the external auditor and reviewing the adequacy of the scope and quality of the annual statutory audit and half year audit review.

The Company does not have any material exposure to economic, environmental or social sustainability risks.

For further details regarding the procedures for selection, appointment and rotation of external audit partners, as well as a copy of the Audit and Risk Committee's Charter, please refer to the Corporate Governance section of the Company's website.

Communication with Shareholders

Pursuant to Principle 6, the Board aims to ensure that the shareholders are provided with full and timely information about the Company's activities. To promote effective communication with shareholders, the Company has designed a Shareholder Communication policy. Information is communicated to the shareholders through:

- the Annual Report which is made available to all shareholders;
- announcements made through the ASX companies announcements platform;
- the Company's website which has a dedicated Investor Relations section for the purpose of publishing all important Company information and relevant announcements made to the market; and
- the annual general meeting and any other meetings called to obtain approval for Board action as appropriate.

In addition, shareholders are encouraged to make their views known or to seek clarification on information available in the public arena by contacting the Company (including the Company's share registry, which facilitates electronic correspondence) or attending the annual general meeting. The external auditors also attend, and are available to answer queries on the preparation and content of the independent Audit Report, the accounting policies adopted by the Company in relation to the preparation of accounts and the independence of the Auditor in relation to the conduct of the audit at the Company's annual general meetings.

For further information regarding the Company's Shareholder Communication Policy please refer to the Corporate Governance section of the Company's website.

Diversity Policy

The Company is committed to promoting equality and diversity in the workplace and aims to be an organisation where diversity is valued, respected and celebrated. All decisions relating to employees will be based strictly on merit, without regard to gender, ethnicity, age, relationship status or any other irrelevant factor not applicable to the position.

Pursuant to Recommendation 1.5, the Company has established a Diversity Policy a copy of which is available on the Company's website. However due to the small size of the organization and its current stage of operations, the introduction of specific measurable objectives at this stage has not been implemented.

Whilst the Board of the Company strongly endorses the concept of gender diversity, until the Company's human resource base has grown to a point where fully implementing specific measurable objectives will become more meaningful, the Company will, in accordance with its Diversity Policy, continue to recruit the best person for each role, regardless of gender, ethnicity, age, relationship status or any other irrelevant factor not applicable to the position.

The Company currently has no employees. In accordance with Recommendation 1.5(c)(1), the table below shows the proportion of women in the whole organisation, women in senior executive positions and women on the Board. The Company defines "senior executive" as those persons having authority and responsibility for planning, directing and controlling the activities of the Group, directly or indirectly, during the financial year:

Board: 66%
Senior Executive: 0%
Employees: 0%

Share Trading

The Constitution of the Company permits Directors and officers to acquire shares in the Company.

In accordance with the provisions of the Corporations Act and the listing Rules of the ASX, Directors must advise the Company and the ASX of any transactions they conduct in securities of the Company.

The Company has established a Securities Trading Policy concerning trading in the Company's securities by Directors and employees. This policy provides a brief summary of the law on insider trading and other relevant laws, sets out the restrictions on dealing in securities by people who work for or who are associated with the Company, and is intended to assist in maintaining market confidence in the integrity of dealings in the Company's securities.

The policy stipulates that the only appropriate time for a Director or employee to deal in the Company's securities is when he or she is not in possession of 'price sensitive information' that is not generally available to the share market. A Director wishing to deal in the Company's securities may only do so after first having received approval from the Chairman. All staff wishing to deal must obtain approval from the Managing Director (or equivalent).

Trading in the Company's securities is also subject to specified blackout periods, which are set out in the Company's Securities Trading Policy or as otherwise determined by the Board from time to time.

The Company prohibits Directors and employees from entering into transactions in associated products which limit the economic risk of participating in unvested entitlements under any equity-based remuneration schemes.

A copy of the Company's Securities Trading Policy is available in the Corporate Governance section of the Company's website.

Integrity of Financial Reporting and Risk Management Policies

The Board has primary responsibility to ensure that the Company presents and publishes accounts which present a true and fair view of its results and financial position and that the accounting methods adopted are appropriate to the Company and consistently applied in accordance with relevant accounting standards and the applicable laws.

Under section 295A of the *Corporations Act*, the Managing Director (or equivalent) and the person who performs the Chief Financial Officer function are each required to provide a written statement to the Board that the Company's annual financial report presents a true and fair view, in all material respects, of the Company's financial condition and operational results and that it is in accordance with the relevant accounting standards. Recommendation 4.2 extends this requirement such that it applies to financial statements for any financial period and that the Managing Director (or equivalent) and the person who performs the Chief Financial Officer function must also confirm that this statement is founded on a sound system of risk management and internal compliance which implements the policies adopted by the Board and that the Company's risk management and internal compliance and control system is operating effectively in all material respects. The Board confirms that it has received written statements to this effect from the Executive Director and the Chief Financial Officer for the half year, annual financial reports and quarterly reports from 1 July 2018 to the date of this report.

Due to the size of the Company and its current level of activity and operations, the Company does not have a formal internal audit function. Periodically, internal reviews of the Company's financial systems, documents and processes will be undertaken and any recommendation for improvement reported to the Board as part of the Company's risk management processes.

The Company is committed to the management of risks throughout its operations to protect all of its stakeholders. Risk management is carried out through the full Board and the processes and procedures mentioned above.

The Company's Risk Management Policy deals with the management and oversight of material business risks and provides the guiding principle for management in the identification of risks across the organisation as a whole, and within individual business units.

The Risk Management Policy provides a framework for systematically understanding and identifying the types of material business risks that may threaten the Group as a whole or specific business activities within the Company and includes risk mitigation strategies. When the Company's operations increase, the Company intends to establish specific frameworks for operational and organisational risk.

Due to the limited operations of the Group during the reporting period, the Board did not conduct a formal review of the Group's risk management framework but considered risk on an ongoing basis. The Board felt that given the nature and scale of the Company that process was the most appropriate and most robust means of monitoring and managing risk for the Company.

The Board has formed the view that the Company does not currently have any material exposure to economic, environmental or social sustainability risks, other than the risk of obtaining the necessary government and other approvals required for permitting of any proposed project development, that require demonstration by the Company of environmental/social acceptability of the project. The Company will manage these risks by developing its environmental, community and social development programs and communicating with both community and government regarding its development plans and risk management strategies. Also, the Company is subject to the ongoing risks associated with funding its exploration, mining development and other activities.

For a summary of the Company's Risk Management Policy, please refer to the Corporate Policies section of the Company's website.
